

I am writing you to ask you not to expand LPFM broadcast services to take priority over current FM translator service. This would affect a station that I listen to regularly - K-Love. K-Love provides a vital service to communities by offering a clean, uplifting radio station that the whole family can enjoy. Because it operates on local/individual contributions it must be a nationwide program in order to raise enough to cover it's costs. Local stations have a difficult time consistently raising funds to stay afloat. K-Love is the only radio program that I know of that provides such a wide variety of positive music that meets so many needs that would otherwise go unmet. Please do not make it more difficult for K-Love to reach across America and bless so many people. Thank you.
